Among those who attended the semi-monthly dance given by the Clifton Dancing Club Saturday evening were Mr. and Mrs. A. L. Cummings, Misses Grace Fowler, Edna Harrar, Helen Ray, Catherine Brotherton and Messrs. H. F. Smith, A. R. Crittendon, E. F. Randall, A. G. Fletcher, F. C. Flickensdorfer, Chas L. Swain and G. R. Ryan.

Many of the ladies of camp spent a pleasant Saturday afternoon, when the Ladies Aid Society held a social meeting at the club. A short business session was first in order, after which the following interesting program was rendered:

Reading on "Matthew" from Dr. W. H. F. Schreder.
Piano Duet—Mrs. M. Roscoe and Miss Beatrice Roscoe.
Current Events—Mrs. E. F. Hart.
Paper, "Book of Ruth"—Mrs. M. Roscoe.
Piano Solo—Miss Beatrice Roscoe.

They were here in full bloom and certainly aroused the camp considerable with their pomp and demonstration, these El Paso Trade Boosters with their crack band. A special train from Guthrie brought this particular live bunch of men into Morenci at 10:30 a. m. and from the time they landed the place was wide awake. Messrs. A. T. Thomson, L. J. Owen, Dr. Tutthill, were among those who received the visitors and accompanied by the band, many places of interest were visited. During their inspection of the Phelps Dodge Mercantile company store the band composed of thirty pieces, entertained a with a short concert, and accompanied a quartette during the rendition of several selections much to the enjoyment of all who heard them. Advertising souvenirs of various descriptions were much in evidence and freely distributed. Everyone was decorated with the "Key to all El Paso." Much enjoyment was derived from the music rendered by the 22d Infantry band, that accompanied the Boosters. At noon the entire party dined at the Morenci Hotel, in company with many invited guests, and all enjoyed an elegant lunch served under the direction of Mrs. F. H. Fowler, the manager. At 12:30 the party boarded their train again and gave three rousing cheers for Morenci as the train went down the canyon.

One of the best moves that has ever been made in a social way in camp, was started on Monday evening, when the Morenci Social club was organized with one hundred members, and officers elected to serve six months. The membership was made large enough so as to include all who care for dancing and keep the club on a self sustaining basis. The following officers were elected: A. L. Cummings, President; John Kiddie, 1st Vice-President; W. L. DeMoulin, 2nd Vice-President; E. F. Randall, Secretary-Treasurer; while in the executive committee were included W. P. Miller, Larkin Neel, F. C. Blickensdorfer, and J. H. Williams. The opening dance will be given on Halloween night and no invitations will be issued. A special invitation has been issued to the Clifton Dancing Club and a number of representative members of that well known club have signified their intention to be present. Martin's orchestra has been engaged for the occasion and both rooms of the Morenci Club will be used. It is not the intention of the club to make their opening dance especially elaborate, but more with the idea of getting the people to the dance and showing them an enjoyable evening as possible. During the winter months two

dances will be given each month, while the holidays will be observed with dances befitting the occasion.

RICH GOLD ORE IN MOHAVE MINES.

Last Tuesday morning Sid. Reeves, special messenger of the Tom Reese Gold Mines Company, arrived in Kingman from the property with four bars of bullion weighing above 500 pounds and having a value of \$100,000, the result of three weeks run of the mill. About three weeks ago the same messenger brought in about \$70,000 in bullion, and about the last week in this month another big bar will be forthcoming.

The Tom Reed mines are now producing some of the richest ore in its history and it is probable that this production will be continued for some months. The lower grades of ore will not be extracted until the larger mill and more economical methods are installed. While the present method of handling ores from mine to bullion is month by month being improved upon by the addition of more economical machines, with a greater mill and the knowledge gained by past experience the company will greatly cut the fixed charges. In the mine are thousands of tons of ore that will run well over \$14, the stopes showing a width of sixteen feet of ore, and when cheaper power and larger milling facilities are installed this ore will turn out an immense amount of bullion.

Here is a woman who breaks from personal knowledge and long experience, viz., Mrs. P. H. Brown, of Wilson, Pa., who says, "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For cough there is nothing that excels it." For sale by all druggists.
